ROBOTIC POOL CLEANERS

The Evoclean EX3 Advantage

The Evoclean EX3 has been developed to provide you with hours of enjoyment in a clean, pure and hygienic pool.

- Brushes and scrubs pool surfaces and filters pool water.
- Efficient scanning and cleaning performance.
- Helps to prevent germination of algae and bacteria.
- Reduces the number of required backwashes.
- Autonomous unit, no pre-installation required.
- Swivel on cable prevents cable tangling.
- DIY - easy maintenance at user and local dealer level.
- Low voltage and low energy consumption.
- Automatic shut off at end of cycle time.
- Motor protection mechanism in case of over load.
- Suitable for beach entry pools.
