Contain spilled product using absorbent (soil or sand). Prevent run off into drains, sewers waterways or soil. Collect and seal in properly labelled drums ready for appropriate disposal. Dilute remaining product with water and rinse to sewer. For large spills notify local emergency services.

### Section 7 – Handling and Storage

**Precautions for Safe Handling:** Irritant liquid. Ensure an eye bath and safety shower are available and ready for use. Use only in a well-ventilated area. Prevent the build-up of mists in the work atmosphere. Avoid inhalation of mists, and skin or eye contact. Wear appropriate protective equipment to prevent inhalation, skin and eye contact when mixing and using. Ensure a high level of personal hygiene is maintained when using this product, that is, always wash hands before eating, drinking, smoking or using the toilet. Keep containers sealed when not in use.

**Conditions for Safe Storage:** Store in a cool, dry, well ventilated place and out of direct sunlight. Protect from moisture. Do NOT store with foodstuffs. Store away from incompatible materials described in Section 10.

### Section 8 – Exposure Controls and Personal Protection

**Control Parameters:** Not determined for this product.

**Appropriate Engineering Controls:** Ensure ventilation is adequate and that air concentrations of components are controlled below quoted Workplace Exposure Standards. Avoid generating and breathing in dusts. Use with local exhaust ventilation or while wearing dust mask. Keep containers closed when not in use.

**Individual Protection Measures, Such as Personal Protective Equipment (PPE):** The selection of PPE is dependant on a detailed risk assessment. The risk assessment should consider the work situation, the physical form of the chemical, the handling methods, and environmental factors.

OVERALLS, SAFETY SHOES, CHEMICAL GOGGLES, GLOVES.

Wear overalls, chemical goggles and impervious gloves. Always wash hands before smoking, eating, drinking or using the toilet.
