

Product: Evopure Pool Clear

Issue: 1/01/2023

Poisons Information Centre: 131 126 in Australia, 0800 764 766 in New Zealand

Page 1 of 6

Section 1 – Identification of the Material and Supplier

Product Name: Evopure Pool Clear

Other Name: Pool Clarifier

Product Use: Swimming pool clarifier and water polisher.

Creation Date: 1/01/2018

This version issued: 1/01/2023 and is valid for 5 years from this date.

Details of Manufacturer:

Evolution Water & Lighting Solutions Pty Ltd 1/33 Hinkler Drive, Highland Park QLD 4211

Phone: +61 7 5565 0000

Email: enquiries@evolutionwls.com.au

Emergency Telephone Number: 000

Poisons Information Centre: 131 126 in Australia, 0800 764 766 in New Zealand

Section 2 - Hazards Identification

Hazard Classification of Substance

Not classified as dangerous according to criteria of SAFEWORK Australia.

Not classified as dangerous according to criteria of ADG.

SUSMP Classification: Not Scheduled

GHS Hazard Category: Aquatic Acute 3- Hazardous to the aquatic environment

Aguatic Chronic 3- Hazardous to the aguatic environment

GHS Signal word: WARNING

HAZARD STATEMENTS:

H402 Harmful to aquatic life.

H412 Harmful to aquatic life with long lasting effects.

GENERAL

P101 If medical advice is needed, have product container or label at hand.

P102 Keep out of reach of children.

P103 Read label before use.

PREVENTION

P264 Wash hands thoroughly after handling.

P270 Do not eat, drink or smoke when using this product.

P273 Avoid release to the environment.

P280 Wear protective gloves/protective clothing/eye protection/face protection.

P362+364 Take off contaminated clothing and wash it before reuse.

RESPONSE

P301+312 IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell. P330 - Rinse mouth. P302+352 IF ON SKIN: Wash with plenty of soap and water.

P332+313 If skin irritation occurs, get medical advice/attention.

P305+351+338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P337+313 If eye irritation persists, get medical advice/attention.

STORAGE

P403+P233 Store in a well-ventilated place. Keep container tightly closed.

DISPOSAL

P501 Dispose of contents/container in accordance with all federal, state and local regulations.

Product: Evopure Pool Clear

Issue: 1/01/2023

Poisons Information Centre: 131 126 in Australia, 0800 764 766 in New Zealand

Page 2 of 6

Section 3 - Composition/Information on Ingredients

Ingredients

Chemical Entity	CAS Number	Proportion	GHS Classification
2-Propen-1-aminium, N,N-dimethyl-N-2-propenyl-, chloride, homopolymer	26062-79-3	<10%	H402 ; H412

This is a commercial product whose exact ratio of components may vary slightly. Minor quantities of other non-hazardous ingredients are also possible.

Section 4 – First Aid Measures

For advice, contact a Poisons Information Centre (e.g. phone Australia 131 126; New Zealand 0800 764 766) or a doctor.

Ingestion: Rinse mouth and then drink plenty of water. Do NOT induce vomiting. If symptoms develop or persist seek medical attention.

Eye Contact: Immediately flush eyes with plenty of water for 15 minutes, holding eyelids open. In all cases of eye contamination, it is a sensible precaution to seek medical advice.

Skin Contact: Remove contaminated clothing. Wash affected area with plenty of soap and water for at least 15 minutes. If symptoms develop or persist seek medical attention. Wash clothing before reuse.

Inhalation: If difficulties occur after vapour/aerosol has been inhaled, remove to fresh air and seek medical attention.

Medical attention or special treatment required: Treat according to symptoms (decontamination, vital functions), no known specific antidote.

Section 5 - Fire Fighting Measures

Suitable Extinguishing Media: Water spray, dry powder, foam.

Hazards from Combustion Productions: Non-combustible liquid. Evolution of fumes/fog. The substances/groups of substances mentioned can be released in case of fire. Do not release chemically contaminated water into drains, soil or surface water. Sufficient measures must be taken to retain the water used for extinguishing. Dispose of contaminated water and soil according to local regulations.

Special Protective Precautions & Equipment for Fire Fighters: Fire fighters to wear self-contained breathing apparatus if risk of exposure to vapour or products of decomposition (COx) & NOX evolved.

Hazchem Code: Not applicable.

Section 6 - Accidental Release Measures

Emergency Procedures / Environmental Precautions: Clear area of all unprotected personnel. If contamination of sewers or waterways has occurred advise local emergency services.

Personal Precautions / Protective Equipment / Methods & Materials for Containment & Cleaning Up: Slippery when spilt. Avoid accidents, clean up immediately. Wear protective equipment to prevent skin and eye contact and breathing in vapours. Work up wind or increase ventilation. Contain - prevent run off into drains and waterways. Use absorbent (soil, sand or other inert material). Collect and seal in properly labelled drums ready for appropriate disposal. For large spills notify local emergency services.

Product: Evopure Pool Clear

issue: 1/01/2023

Page 3 of 6

Section 7 - Handling and Storage

Precautions for Safe Handling: Avoid skin and eye contact and breathing in vapour, mists and aerosols.

Conditions for Safe Storage: Store in a cool, dry, well ventilated place. Store away from incompatible materials described in Section 10. Keep containers closed when not in use - check regularly for leaks.

Section 8 – Exposure Controls and Personal Protection

Control Parameters: No value assigned for this specific material by Safe Work Australia.

Appropriate Engineering Controls: Natural ventilation should be adequate under normal use conditions. Keep containers closed when not in use.

Individual Protection Measures, Such as Personal Protective Equipment (PPE): The selection of PPE is dependent on a detailed risk assessment. The risk assessment should consider the work situation, the physical form of the chemical, the handling methods, and environmental factors.

OVERALLS, SAFETY SHOES, CHEMICAL GOGGLES, GLOVES

Wear overalls, chemical goggles and impervious gloves. Always wash hands before smoking, eating, drinking or using the toilet. Wash contaminated clothing and other protective equipment before storage or re-use. If determined by a risk assessment an inhalation risk exists, wear a suitable mist respirator meeting the requirements of AS/NZS 1715 and AS/NZS 1716.

Section 9 - Physical and Chemical Properties

Appearance: Blue clear liquid.

Flammability: Product is NOT flammable.

Melting Point:NABoiling Point:100°CFlash Point:NA

Vapour Pressure:Unknown.Volatiles:>90%Vapour Density:Unknown.pH as Supplied2.5-4.5Specific Gravity:1.00

Solubility in water: Indefinitely dilutable

Section 10 – Stability and Reactivity

Chemical Stability: Non-reactive under normal conditions of use, storage and transport.

Chemical Reactivity: Stable under normal conditions.

Conditions to Avoid: Avoid excessive temperatures. Avoid freezing.

Incompatible Materials: Strong acids, strong bases, strong oxidizing agents.

Hazardous Decomposition Products: No hazardous decomposition products if stored and handled as

prescribed/indicated.

Product: Evopure Pool Clear

Issue: 1/01/2023 Page 4 of 6

Poisons Information Centre: 131 126 in Australia, 0800 764 766 in New Zealand

Section 11 - Toxicological Information

No adverse health effects expected if the product is handled in accordance with this Safety Data Sheet and the product label. Symptoms or effects that may arise if the product is mishandled and overexposure occurs are:

SYMPTOMS OF EXPOSURE

Swallowed: Not considered a hazard
Eye: Unlikely to be irritant
Skin: Unlikely to be irritant
Unhalation: Unlikely to be irritant

Acute toxicity: ATE _{MIX} LD ₅₀ rat (Oral): > 30,000 mg/kg	Not expected to be toxic
Skin corrosion/irritation:	non-irritant (OECD Guideline 404)
Serious eye damage/irritation:	non-irritant (OECD Guideline 405)
Respiratory or skin sensitisation:	Not expected to be a sensitiser.
Germ cell mutagenicity:	Not expected to be mutagenic.
Carcinogenicity:	Based on the ingredients there is no suspicion of a carcinogenic effect in humans.
Reproductive toxicity:	Not expected to impair fertility.
Specific Target Organ Toxicity	No data
(STOT) – single exposure:	
Specific Target Organ Toxicity	No data
(STOT) – repeated exposure:	
Aspiration hazard:	Not expected to be a hazard.

Section 12 - Ecological Information

Ecotoxicity: Assessment of aquatic toxicity: Acutely harmful for aquatic organisms. May cause long-term adverse effects in the aquatic environment. The product has not been tested. The statement has been derived from products of a similar structure or composition.

Acute Toxicity:

Fish –	LC ₅₀ (96 h) 100 - 1000 mg/l
Aquatic invertebrate –	EC ₅₀ (48 h) 100 - 1000 mg/l
Algae –	Data not available
Microorganisms –	Data not available

Chronic Toxicity:

Fish –	Data not available
Aquatic invertebrate –	Data not available
Algae –	Data not available
Microorganisms –	Data not available

Persistence and Degradability: Not readily biodegradable (by OECD criteria).

Mobility: Information on: 2-Propen-1-aminium, N,N-dimethyl-N-2-propenyl-, chloride, homopolymer. Assessment transport between environmental compartments: Adsorption to solid soil phase is expected.

Environmental Fate (Exposure): No Data Available

Bioaccumulative Potential: Based on its structural properties, the polymer is not biologically available. Accumulation in organisms is not to be expected.

Product: Evopure Pool Clear

Issue: 1/01/2023

Section 13 - Disposal Considerations

Disposal Methods and Containers: Refer to State Land Waste Management Authority. Empty containers must be decontaminated. Normally suitable for disposal at approved land waste site.

Section 14 – Transport Information

Road and Rail Transport: Not classified as Dangerous Goods by the criteria of the Australian Dangerous Goods

Code (ADG Code) for Transport by Road and Rail; NON-DANGEROUS GOODS.

UN Number:
Transport Hazard Class/s:
Packing Group:
UN Proper Shipping Name:
Hazchem Code:
IERG Number:
Not applicable.
Not applicable.
Not applicable.
Not applicable.
Not applicable.

Marine Transport: Not classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea; NON-DANGEROUS GOODS.

Air Transport: Not classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air; NON-DANGEROUS GOODS.

Section 15 – Regulatory Information

Classification: Not classified as hazardous according to criteria of SAFEWORK Australia.

Classification of the Substance or Mixture:

Aquatic Acute 3- Hazardous to the aquatic environment Aquatic Chronic 3- Hazardous to the aquatic environment

Hazard Statement(s):

H402 Harmful to aquatic life.

H412 Harmful to aquatic life with long lasting effects.

Poisons Schedule (SUSMP): NOT SCHEDULED

AICS: All ingredients are on the Australian Inventory of Chemical Substances.

Section 16 - Other Information

This SDS contains only safety-related information. For other data see product literature.

LEL lower flammable (explosive) limits in air;

LD₅₀ Lethal Dose sufficient to kill 50% of test population

NIOSH National Institute for Occupational Safety and Health The United States federal agency

responsible for conducting research and making recommendations for the prevention of work-

related injury and illness.

NOAEL No Observed Adverse Effect Level

NOEL No Observable Effect Level

NOHSC National Occupational Health and Safety Commission

NTP National Toxicology Program (USA)

PEL Permissible Exposure Limit

RTECS Registry of Toxic Effects of Chemical Substances (Symyx Technologies')

TCLO Toxic Concentration Low

TDLO Toxic Dose Low: lowest dosage per unit of bodyweight (typically stated in milligrams per

kilogram) of a substance known to have produced signs of toxicity in a particular animal

species.

TLV Threshold Limit Value (ACGIH):The time weighted average used to describe exposure which

is harmless to most of the population when exposed 8 hours per day, 40 hours per week. (Time Weighted Average): The average airborne concentration of a particular substance

when calculated over a normal eight-hour working day, for a five-day week.

These exposure standards are guides to be used in the control of occupational health hazards. All atmospheric contamination should be kept to as low a level as is workable. These exposure standards should not be used as fine dividing lines between safe and dangerous concentrations of chemicals. They are not a measure of relative toxicity.

SAFEWORK Independent statutory agency with primary responsibility to improve occupational health and

safety and workers' compensation arrangements across Australia.

STEL (Short Term Exposure Limit): The average airborne concentration over a 15 minute period

which should not be exceeded at any time during a normal eight-hour workday.
